STIP AMENDMENT 00S-045 NOTICE

SUMMARY

This amendment programs \$15,031,000 as an Advance of Interregional Improvement Program (IIP) funds in FY 2001-02 to reconstruct the Etiwanda Avenue Interchange on Route 10 in San Bernardino County. The total project cost is \$16,531,000 with \$1,500,000 contribution of local funds.

RECOMMENDATION

The Department and the County of San Bernardino are requesting this amendment.

RESOLUTION

Resolved, that the California Transportation Commission (CTC) revise the 2000 State Transportation Improvement Program (STIP) at the end of the 30-day notice period as follows:

Adds:

Project Information								
County:	CT District:	PPNO:	EA:	Element:	Const Year:	PM Back	PM Ahead	Route/Corridor
San Bernardino	08	0137F	354501	LA	2001-02	10.1	12.1	10
Project Title:	Etiwanda Avenue Interchange							
Sponsor:	County of San Bernardino							
Implementing Agency:	County of San Bernardino							
RTPA/CTC:	SANBAG							
Location:	In Ontario from 0.5 kilometers east of Route 15 to 1.0 kilometers east of Valley Boulevard Undercrossing							
Description:	Reconstruct I-10/Etiwanda Avenue Interchange from the existing four-quadrant full-cloverleaf interchange to a partial cloverleaf interchange and realign Valley Boulevard ramps

BACKGROUND

This amendment programs \$15,031,000 as an Advance of Interregional Improvement Program (IIP) funds in FY 2001-02 to reconstruct the Etiwanda Avenue Interchange on Route 10 in San Bernardino County. The total project cost is \$16,531,000 with \$1,500,000 contribution of local funds.

The environmental document was completed in November 1999 and the Project Study Report (PSR) was completed by the consultant for the County of San Bernardino in January 2000. The \$15,031,000 in IIP funds will fund the right of way and construction components while the \$1,500,000 in local funds is for the design component. The County of San Bernardino, as Lead Agency, will advertise, award and administer this construction contract.

At the Etiwanda Avenue Interchange on Route 10, traffic is weaving in both directions during peak periods. The problem increases in the westbound direction at the on-ramp from Valley Boulevard. The proposed improvements are expected to eliminate the weaving conflicts and improve the operational efficiency of both the interchange and the Valley Boulevard on-ramps. In addition, this project will eliminate an at-grade crossing of Valley Boulevard and a Union Pacific Railroad (UPRR) spur, thus reducing rail/highway conflicts. This project will also provide auxiliary lane improvements between I-15 and Etiwanda Avenue.
